

Church Celebrates 125th Anniversary

Millburn Congregational Church will celebrate its 125th anniversary this week-end. The anniversary celebration will coincide with the annual celebration of Home Sunday at the church, when former parishioners return to renew acquaintances at a potluck dinner.

The Rev. L. H. Messersmith has been pastor of the church for the last 23 years. During that time he has received over 500 members into the church.

The original church building was a log cabin, built in 1840. The congregation at that time was 14 charter members.

The present church has a membership of 350 persons. The present church building, built in 1937, is the fourth building to be erected to house the growing congregation in the 125 years.

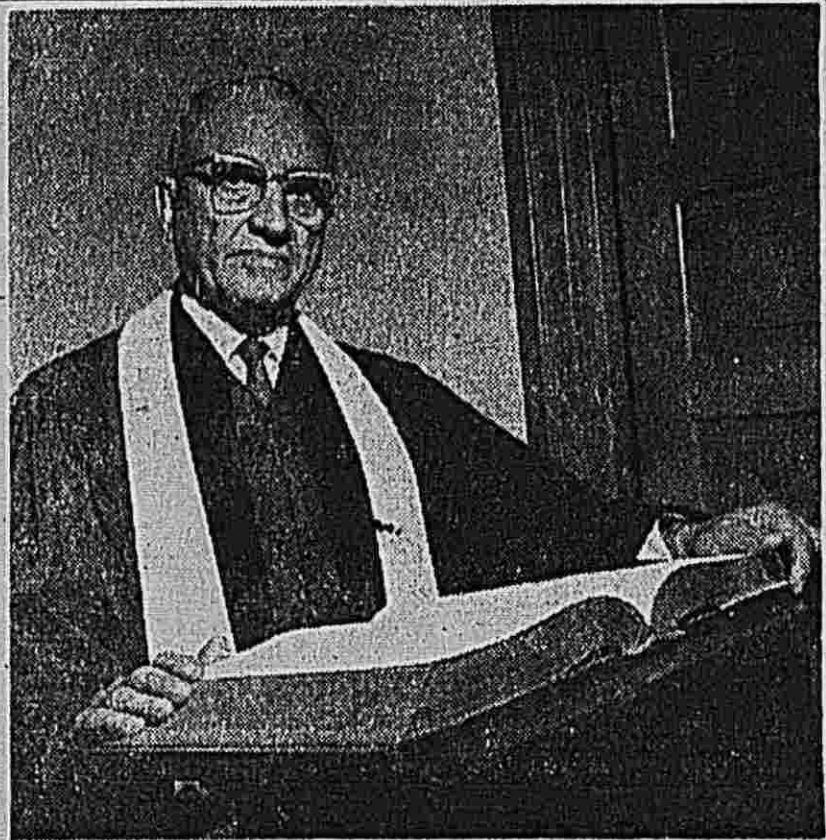

Celebration of the 125th anniversary will start with a banquet at the Millburn School on Saturday, September 11, at 7 p.m.

Robert Denman, co-chairman of the Anniversary committee, will be Master of Ceremonies.

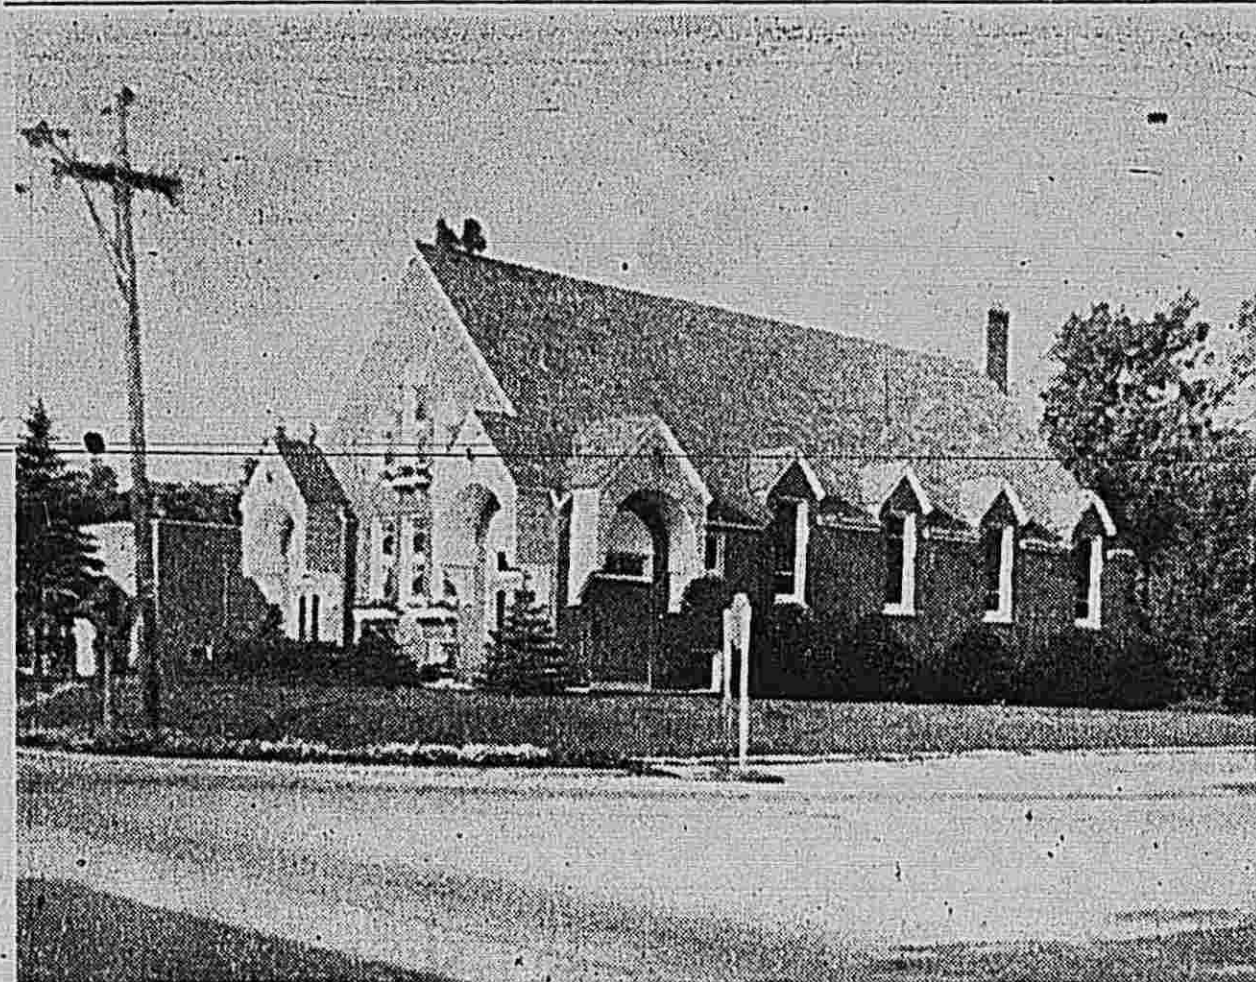

A vocal trio will be a feature of the Saturday night banquet. The Rev. Charles Hoskinson, pastor of the Congregational Church of Glen Ellyn, will be the speaker.

Various organizations of the church will provide numbers for the balance of the program.

Sunday's special Anniversary service will start at 11 a.m. The sermon will be delivered by the Rev. Melvin Frank, who was pastor of the Millburn Church at the celebration of the 100th anniversary. The Rev. Frank is now pastor of First Congregational Church of LaCrosse, Wis.

THE COMMITTEE FOR THE CELEBRATION of the 125th anniversary of Millburn Congregational Church. Left to right, Robert Denman and Mrs. Russell Doolittle, co-chairman; Miss Georgia Stephens,

Assisting at Sunday's service will be the Rev. L. H. Messersmith, the present pastor; the Rev. William Caughran, former Registrar of the Chicago Congregational Association and the Rev. James Smucker, minister of the Northeast Association of the United Church of Christ.

Sunday school classes will also be at 11 a.m. next Sunday. Primary classes through the fifth grade will meet in the Masonic Temple, with other classes attending the Anniversary Service.

A potluck dinner will be served after the services.

Colombian Girl Registers at ACHS

Beatriz Eugenia Munoz-Castro arrived in Antioch August 28, Antioch's second foreign student under the program of the American Field Service.

Beatriz is from Colombia. She's 18 years old and a senior in High School. She will be staying with the family of Mr. and Mrs. Arthur Meyer on First Avenue in Antioch. Beatriz registered at Antioch High School last Friday.

GOP Congressmen To Attend Dinner

Congressman Gerald Ford of Michigan, Republican Leader of the U. S. House of Representatives, and Congressman Leslie Arends of Illinois, Republican Whip, will be featured at a Republican Leadership dinner to be held at Illinois Beach State Lodge on Saturday, October 16. The dinner meeting will also honor the 12th District Congressman, Robert McClory.

1,100 Students Enroll At Antioch G.S.

Approximately 1,100 students registered for the first day of school at the two Antioch Grade Schools, District 34, on Tuesday.

Exact number of students is not yet known, said Richard Whitacre, superintendent of the school. Late registrations are still coming in, he said, and an official count has not been made.

The Antioch Grade School is embarking on a Modern Math program as the school year starts, Whitacre said. The Modern Math will be taught in all grades, kindergarten through eighth grade. Later on, probably in October, a Workshop for teachers on the new Math will be held at the school.

The first day at school was spent in registration, followed by a luncheon for all school personnel. Teachers, board members and all employees of the school attended the luncheon.

Following lunch, the teachers met for a two-hour Workshop from 1 p.m. to 3 p.m. Principal speaker for the Workshop was Mr. Joseph T. Cech, a mathematics consultant from the office of the Superintendent of Public Instruction. Mr. Cech's subject was the new Mathematics.

The staff at the school is complete, Mr. Whitacre said. Forty-three teachers are employed at the two Antioch Grade Schools.

Blasts Damage Homes Near F. River

At least three buildings were reported damaged after dynamite blasts shook the area west of Channel Lake last Saturday.

The Alpine Lodge on James Road was reported lifted from its foundation and a window broken. John Fraiser, Rt. 173 and the river, reported a light fixture was torn from the ceiling. Ed Krupo, owner of the Happy Acres Ranch at Route 173 and the Fox River, reported broken windows and plaster. Sheriff's deputies said the blasting was done by William Zeigler & Sons.

Concussions from the blast were reported felt from as far as the Trevor area.

Mrs. Ruth Krupo reported that several windows were blown out of their frame and chunks of plaster fell from the wall.

A marriage seldom goes on the rocks when a couple finds something to laugh about. For example, there's always the wedding picture.

Three Die In Flaming Crash

Three women were killed and three seriously injured in a car accident on Edie Rd. south on Sand Lake Road Sunday.

Those who died in the accident were Mrs. Erna Vanderspool, 39, Wadsworth; Mrs. Libby Kauck, 36, and Mrs. Jack Konvalinska, 65, Chicago.

The Vanderspool auto caught fire after the impact. Coroner Pat Clavey, his brother Ted and Miles Sherin, a Gurnee fireman, were given credit for saving the lives of the women in the other car when they pulled the car away from the blazing Vanderspool car before it exploded.

Injured in the Kauck auto were Rose Marie Hevredels, Antioch; Evelyn B. Valls, Berwyn; and Marie Holoubek, Lisle.

Enrollment at ACHS Shows Slight Drop

Enrollment at Antioch Community High School took a slight drop this year, with 974 students registered on Tuesday, the first day of classes for the whole school. Enrollment at the start of last year's term was 987.

An increase in enrollment this year was not anticipated. Superintendent A. L. Dittman remarked, however, enrollment is expected to resume its upward climb next year.

The enrollment by classes is Seniors, 194; juniors, 227; sophomores, 273; and freshmen, 280. An interesting note is that last year's junior class also numbered 227.

There are 513 boys at the high school and 561 girls.

Name New GOP Chairwoman

Republican Chairman Robert J. Milton has named Mrs. Richard C. Reed, Deerfield, to the post of Republican Chairwoman for Lake County.

Both Mrs. Reed and her husband have been active in Republican village, township and precinct activities since coming from Deerfield nearly seven years ago. Mrs. Reed was active in developing a program of planned precinct and block action for West Deerfield Township.

She served on the Executive Board of the Young Republican Club, was president of the West Deerfield Women's Republican Club and has represented her club at three National Conferences for Women sponsored by the Republican National Committee.

Action Started on Zoning Ordinance

Mayor Ray Toft appointed a seven-man zoning committee at Tuesday night's meeting of the Village Board. The committee was instructed to study and update the zoning ordinance prepared by the former committee, and present it to the Board for approval.

Trustee Irving Walsh said that a bill recently signed by Governor Kerner gave the county authority to enforce its zoning ordinance within municipalities if the municipality has no zoning ordinance of its own. If Antioch does not pass its own zoning ordinance, he pointed out, the county will have control of zoning within the village.

Robert Wilton, Jr., was appointed chairman of the zoning committee. Other members are David Nissen, Art Larson, Bill Lahli, Robert

Wilton, Sr., Bob Bolton and E. H. Glenn. Attorney Ed Jacobs said at least one public hearing on the ordinance would be necessary before its passage.

Bids were opened on a building and equipment for the water softening plant. Two bids on Contract C, for the equipment were received. One was from Northwest Heating and Plumbing in the amount of \$86,823. The other was from Patten, North Chicago, for \$72,777.

Bids on Contract D, for the building, were received from Benes Construction, \$30,100; Herbert Ruess, \$29,744; Northwest Heating & Plumbing, \$33,400, and Williams & Johnson, Hampshire, Ill., \$27,993.

Village engineer Roger Patzer asked for time to study the bids. Awarding of

the bids was held over pending study.

Mayor Toft told the board that representatives of the County Health Department had notified the village board that Sequoit Creek must be cleaned out. The flow of water is impeded in one place by improper installation of a culvert. In other places, brush and debris must be cleaned out.

Trustee Arthur Meierdink reported that the suggestion box recently installed in the police station contained some obviously facetious suggestions from teenagers, plus a suggestion that all parking be eliminated on Orchard St. from Broadway to Hillside. After discussion of the suggestion, the board instructed Attorney Edward Jacobs to prepare an ordinance prohibiting parking on either side of Orchard from Broadway to Hillside.

Daisies Won't Tell. But Mushrooms Will

Tired of the unseasonably cold weather that August has brought? Cheer up, folks. Warmer weather is in the offing for the next six weeks. So say the mushrooms, through their interpreter, Dr. Charles Solar.

Doc is not the kind of doctor you call if you have a stomach ache, or the measles. He confines his ministrations to the feet. In short, he's a podiatrist.

If it seems a far cry from doctoring sore feet to foretelling weather, we can only say that Doc's a versatile fellow—and besides he likes mushrooms. He's hunted mushrooms since he was a youngster.

There's some guy in Waukegan who claims the perch give him advance word on the weather. His weather forecasts are vague and usually wrong, says Doc. After all, the perch are probably talking about the weather at the bottom of Lake Michigan, and that isn't where the rest of us live.

The perch, it seems, say "a cold winter coming up." Not really, say the mushrooms, via Doc. Cold weather at Thanksgiving, but then an off-again, on-again sort of winter. A few cold spells, mixed with average temperatures.

If you're more interested in mushrooms than you are in the weather, this is the best mushroom year in 20 years, Doc says. "There are so many, of so many varieties, flourishing in the woods that it's confusing for anyone who isn't an expert."

The stump mushrooms are in full swing, even though it's early for them, Doc says. This is because of the extreme moisture and early cool weather.

If Hcn of the Woods is your favorite, there were none in evidence last Wednesday, says Doc. But he saw several coral mushrooms, a variety rarely seen in these parts.

Happy hunting, folks. You have six weeks of delightful weather to browse through the woods and hunt mushrooms. The mushrooms themselves say so.

Chamber To Meet Monday

The Antioch Chamber of Commerce will hold a luncheon meeting on Monday, September 13, at Lorenz's Smart Country House at 12 noon.

Guest speaker will be Charles A. Blank of Crystal Lake, Regional Representative of Simplified Business Services. His subject will be "The Need for—and Use—of Adequate Records," which should prove to be both interesting and enlightening.

Mr. Blank, a resident of Crystal Lake for 10 years, has an extensive executive background in accounting, finance, and industrial engineering. He is now vice president in charge of administration, devoting his full time to Simplified Business Services, described as the oldest and largest small business service organization in the country.

President Dick Miller urged all members and non-members to attend this meeting for an hour or two of good food, good fellowship and valuable tips for their business.

Recovers Stolen Car Undamaged

Joe Stierbenz, 920 David St., Antioch, had a few anxious hours Tuesday when his car was stolen. However, it was recovered later in the day, apparently undamaged and with none of the contents stolen.

Joe had parked his car in Libertyville where the theft occurred at about 11 a.m. He was notified at about 3 p.m. that Lake Forest police had picked up the car. It had been taken by a 16-year-old youth who had a previous record of like offenses.

Night School Starts Soon

Antioch High's Adult Evening School program will swing into operation on Monday, September 13.

The popular program has been expanded to incorporate most of the previously taught courses as well as new courses in Intermediate Art, First Aid, Citizenship Preparation, Ballroom Dancing, Woodshop and Basic Insurance.

Monday night courses will include Intermediate Art, Physical Fitness, Conversational Spanish and German, Business Machines, Gregg Shorthand, Basic Insurance, beginners and Intermediate Sewing, Preparation for Citizenship, Home Furnishings and Decoration.

Tuesday night courses will include Bridge, Drawing and Painting, Books & Coffee, Beginning & Intermediate Typing, Basic Metalworking, Woodworking, First Aid.

Wednesday night courses are Adult Recreation, Ballroom Dancing, Gregg Shorthand and Basic Bookkeeping.

Interested residents of Antioch and surrounding communities may write or call the high school office to request a detailed brochure and registration form.

Registration will be conducted the week of September 6 through September 10 in the high school office or will be accepted by mail or phone.

Fees should be paid on or before the first class meeting. A \$1.00 registration fee has been added to the normal fees this year in order to expand the program and improve services to participating students.

It's a Privilege

About 17 million young people should be returning to high school this fall. It's estimated that about 750,000 of this number will either fail to return or drop out before the school year's over.

The lack of a high school diploma means severe limitations when it comes to getting a job. Possession of a diploma is an automatic requirement in getting employment with most businesses of any size. So the job hunter without a diploma soon finds that only a few of the poorer-paying jobs are open to him.

The drop-out has probably been told this innumerable times by teachers and counselors, if he has managed to escape the publicity given the drop-out problem by the press, radio and television. Evidently, it has little effect.

Perhaps we could afford to ignore the person who refuses to accept an education when it's offered to him if the price were not so high; but we know that a high percentage of the drop-outs are going to cost us money for the rest of their lives, either in welfare payments or because they turn to crime.

Perhaps we'd do well to quit urging the drop-out to finish school. Perhaps if we reminded our young people that attending high school is not an irksome duty, a necessary prelude to getting a job, but a privilege they'd be more inclined to take advantage of that privilege.

An opportunity to attend high school or college is a privilege. It's an expensive privilege for which the taxpayer pays dearly. Although no one can help the student to make good use of the privilege, everything possible is now done to make it easy for him to attend high school. Bus transportation is provided, a cheap hot lunch is available, a counselor is available for the student who is having trouble. High Schools are making more effort to offer a variety of courses for the student who is not interested in preparing for college.

There isn't much more we can do to make a high school education attractive. So let's remember, and remind youngsters, that it's a privilege that wasn't so available in the past.

That little diploma is money in their pockets.

False Compassion

Labor Day is the signal for "summer people" in this resort area to pack up their children and belongings and move back to the city. Each year some of them leave a problem in their wake. Dogs and cats, adopted for the summer, often to please the children, are left behind to fare for themselves.

Most of the people who abandon their pets probably consider themselves soft-hearted people. Either they're too "kindly" to take the animal to a vet to be put to sleep, or they don't want to pay for it. And, of course, they'd be horrified at the thought of doing the unpleasant job themselves.

So they simply turn Sport or Tabby loose to fare for himself. To wander the countryside hunting food in garbage cans and at other people's doors; to be attacked by other cats and dogs when they try to invade their particular precinct; to be shot with BB guns or shotguns by homeowners annoyed by the persistent, hungry strays.

If they manage to survive till winter, they wander, half-frozen and half-starved, till they succumb to sickness or freeze to death.

In addition to their own suffering, the uncared-for animals help to spread rabies. Unknown to their former owners, they may bring suffering or death to some child who tries to befriend them.

If the "soft-hearted" people who left their problem behind had to watch the day-by-day misery of their abandoned pets they'd realize how false their sentiments are. If they are truly compassionate, they'll make sure the animals either have a home or are put to sleep permanently.

Your Congressman Reports....

By Cong. Robert McClary

For the first time in 176 years, the Congress is giving serious consideration to extending the term of U. S. Representatives to four years—instead of the present two-year term. House Joint Resolution 394 sponsored by the veteran Congressman Frank Chelf of Kentucky has been the subject of hearings in the House Judiciary Committee during recent weeks.

In his opening statement to the committee, Congressman Chelf reported on a survey which he has conducted among the various House Members. This survey shows that 254 Members (out of 435) favor extending Congressional terms to four years. Only 41 Members are against the proposal with the rest still undecided. A corresponding poll of the United States Senate indicates that at least two-thirds of the members of that body favor the proposal.

It is appropriate to recall that when the two-year term for Representatives in Congress was originally established, it sometimes took a month or more for a Member to travel on horseback or stagecoach from his Congressional District to the Capitol in Washington. The sessions of Congress in those days lasted for only two or three months, after which the Congressmen returned to their constituents to report on the session and explain their actions. The physical strain on Members of Congress in that day was small indeed compared to that which must be endured in today's complex and fast-moving society.

A Congressional District in 1800 amounted to only about 40,000 residents. Today's Congressional Districts are ten to twelve times as large, the duties and demands are many times as great and the communication of Congressional actions is almost instantaneous. Most Members of Congress report periodically by the media of newsletters and radio reports on their activities in Washington, and what they don't voluntarily report the various news media do for them.

The lengthening of the term of Members of the U. S. House of Representatives to four years has been discussed in and out of the halls of Congress for many years. Even at the Constitutional Convention in 1789 one of the principal delegates (later President of the United States), James Madison of Virginia, proposed a three-year term, a proposal which was turned down by a narrow margin.

If four-year terms are recommended at the present session in the form of a Constitutional amendment, it is expected that the terms will be staggered so that only one-half of the members will be elected at any one time. Heretofore approval of such a proposal in the United States Senate has been virtually impossible inasmuch as the Senators feared that during the off-year elections House Members would invariably try for their Senate seats with everything to gain and nothing to lose since two years of the House term would remain. This Senate opposition is removed in the present proposal by a provision that the Representatives may not become candidates for any other public office during their term. The Senators are most pleased with this section of the bill and are reported to be overwhelmingly in favor of Congressman Chelf's proposal.

Being a Constitutional amendment, the proposal will require passage in both the House and Senate by majorities of two-thirds of the members of each chamber, after which the approval by three-fourths of the state legislatures will be necessary before any such change in the law can become effective.

Now they're investigating TV fans. They caught a fellow the other night eating his TV dinner in front of a radio.

ALONG THE WAY with Annie Mae

Have you been wondering what happened to summer? So have the rest of us. Got the shock of my life today when I realized there are only seven weeks left on the Christmas Club card! We hardly had a chance to get our bathing suits wet this summer, what with the cold and rain every other day. Oh well, we still have Injun Summer to look forward to unless they decide to hold their annual pow-wow somewhere else this year.

THE LATEST REPORT: The new subdivision now being plotted in the northwest corner of our fair village, will be known as Sequoit Terrace, and should be sprouting new homes by early 1966. **Miss Beatriz Munoz** is the new A. F. S. Exchange student attending Antioch Com. H. S. this year. The lovely raven-haired young lady hails from Colombia, S. A. **Earl Pape** displayed his chivalry the other day when he came to the rescue of two ladies locked out of their station wagon on Lake St. In case you were wondering why they

were digging up the newly installed sewers in Lake Villa the other day, it was to retrieve a T. V. camera. No, no one flushed it down the drain. It seems they were investigating some sewer problems with a special type T. V. camera when the cable attached to it snapped and so-o-o the only way to get to it was to dig up the sewer!

NOTES TO YOU: Bob Wilton, Jr. was one of Antioch's traffic victims last week, well not exactly traffic, rather automobile. The right side of his face, and his car door had a collision. **Ronnie Polson**, who is a walking ad for his **Health Food** business, will have a greatly expanded line when he opens his Main Street retail store very soon. Just nodded to Governor Kerner who is at his summer home for a few days.

THE LAST DROP: Have to rush off now and practice my "fore" woods, because I'm playing in **Big John's** tournament tomorrow, and I wouldn't want to hold up those fellows.

Teed off. Annie

Courthouse Notebook

BY LOU DURKIN

There was much talk earlier in the year about "The Long Hot Summer", but looking back from this post-Labor Day vantage a person wonders where the summer went.

Stores throughout the county have been featuring fall and winter gear for several weeks and the college pennants, colored leaves and heavy jackets highlighting the melancholy feeling autumn always brings.

There is short-lived compensation in anticipation of the new decorating schemes that will turn the countryside to flame in a few weeks, but checking this anticipation is the dreary realization the fall beauty is but a prelude to winter.

Mathon Kyritsis, the fish reading weather prognosticator, offers a gleam of hope with prediction of a long, warm fall, but of late his guesses have been as trustworthy as those who automatically pick the Chicago White Sox and Chicago Cubs as pennant winners.

There is a dandy brawl developing between Sheriff Charles Larson and county officials who want to see a new jail constructed "Somewhere out west."

Under the plan being pushed by Courthouse Architect William Ganster, some members of the Lake County Building Commission and some key members of the county board, the new complex would provide temporary holding facilities in the basement with the main jail building in the Libertyville auxiliary.

Sheriff Larson, who has learned about jail breaks and the need for maximum prisoner security the hard way, looks with disfavor on a plan that would require transporting prisoners by van halfway across the county for each court appearance.

One gets the feeling that advocacy of the plan for a jail in western Lake County is based on a need to justify the auxiliary building than on intelligent penal planning.

Businessmen in downtown Waukegan who see the new county building complex as a key factor in revitalization of the county seat's downtown would prefer to have the jail outside the area because such a facility does little to improve the commercial image of the area.

Since the sentiments of these businessmen were vital factors in the decision to build the new courthouse at the present location it can be assumed their preferences will be given more weight than the sheriff's.

After all the sheriff is only with us four years at a time, but commerce is with us always.

You can't keep political talk out of the air even though the primary elections have been pushed back to June.

Cheer up, kiddies. So you're back in school. Long hours at a desk trying to learn a lot of facts and figures.

Maybe things will change for you. Like in France, where some of the schools are now having half a day of school work and half a day of play.

The experiment is being tried with about 8,000 French students from 12 to 14 years old. The idea is to strike a better balance between physical and mental endeavor.

Half a day is spent studying, half a day pursuing some physical or recreational activity. Some of the lucky children go on month long ski trips with their teachers. Half a day spent in study, half a day playing in the snow. Sounds pretty good?

So far it's worked out real well. Yes, I'll bet any student could learn twice as well with the prospect of a half-day spent in doing something he liked.

Evinrude's come up with a motor that folds into a carrying case. Now if they can build boats the same way—the ones that always are in front of you on the highway—we'll all be happy.

NO POLLUTION — The districts are officially and finally accepted.

Long Grove Country Club, a plush new golf layout in the south end of the county, will be the scene of the annual Golf Outing of the Lake County Republican Central Committee on Monday, Sept. 13.

Judging from the reports concerning the length and difficulty of the course, players will probably cut discussions of their scores as short as possible and get down to more pleasant subjects like slate making at the 19th Hole.

County Health Department's put its stamp of approval on the sterling purity of our lakes—at least, they say there's no harmful pollution. Which is very comforting, even if some of them do smell to high heaven.

For some reason, there is now a slight but steady flow of water across highway 173 west of Smart's Country House. A hidden spring, perhaps? I hope it goes back underground before freezing weather sets in.

Antioch News: Where, oh where, is Pinewood Lane?

An expression of thanks to an Antioch police officer (name unknown).

On Friday, Sept. 3, 1965, two brothers, one from Oceanside, California and the other from Edgerton, Wisconsin, came to Antioch to visit the Gunty's at 11 Pinewood Lane, Oakwood Knolls.

Like many others since Nov. 21, 1964 (since we're here), who visited us, had to have help in locating Pinewood Lane.

So these two men after misplacing the address and driving around for an hour, contacted this very courteous officer, who not only looked up the address and phoned to check whether we were home, but also drove them right up to our door.

We want to thank him and commend the Police Department for having men of this caliber.

Sincerely yours,

POOR ALEXEI

From the St. Louis, Mo., Labor Tribune: "A recent Associated Press release from Moscow told of the sad tale of Alexei Medushenko, a self-taught village fiddler.

An examination of the rich-toned instrument Alex played for 43 years carried the following inscription: 'Nicolo Amati, Cremona, 1645'. Thus it was learned that Alexei's violin was a priceless Amati—the teacher of an even more famous violinmaker, Stradivarius. So, for art's sake, the U.S.S.R. took Alex's fiddle away and put it in a museum where it can be looked upon but not played. Now, had Alexei lived in our communist-called rotten 'capitalistic' America, he would have kept his violin, and probably been featured on TV as 'Al and his Amati' at a weekly four figure salary; or sold the instrument for a 'hundred grand' or more, minus the 25% capital gains tax, and lived comfortably ever after."

Awfully Healthy

The man limped into the doctor's office and asked the nurse for an early appointment.

"What is your trouble?" asked the nurse.

"I've got these terrible pains in my back," moaned the patient. "My ears ache, my stomach hurts all the time and I keep getting these

stabbing headaches."

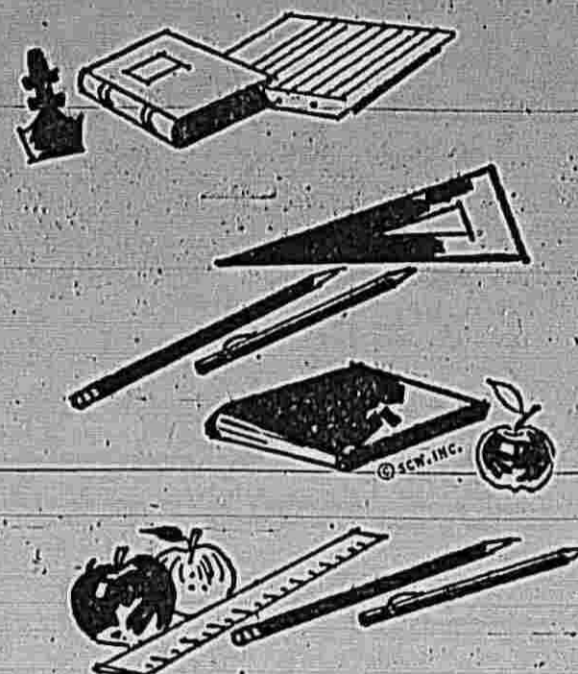

"Goodness," said the nurse admiringly, "you must be awfully healthy to stand all that pain."

Familiar Figures In & Around Antioch

Patrolman Fred Elam is a familiar figure in Antioch. He's served three years with the Antioch police force, and recently requested limited duty. In short, most of his on-duty time from now on will be spent checking parking meters and guarding school crossings.

One of Fred's duties has been checking parking meters and issuing tickets for violations, so he's the recipient of many bitter complaints from people who are sure the meter doesn't work, they had the money in it and it didn't register, etc. Fred is unfailingly cheerful, with a sharp quip for complainers as well as everyone else he comes in contact with during his day's work.

He had good training for his present job—30 years in the Army, 15 of them as a Military Policeman. He was a Master Sergeant when he retired, an instructor in anti-aircraft at West Point, New York.

In World War II, he served with the 24th Division in the Philippines. He also served in Korea with the 8th Field

Alfred Klimesz

To Conduct Campaign

Mr. Alfred Klimesz, capital funds counselor of the Lutheran Laymen's Movement for Stewardship of the Lutheran Church in America arrived in Antioch Sept. 8 to assist the St. Stephen Lutheran Church in a capital funds campaign. He will remain with the congregation until Sept. 27.

Mr. Klimesz is a resident of Wildwood, New Jersey. His call to LLM represents the culmination of 20 years of business experience and necessitated the closing of the Klimesz advertising - public relations agency in Wildwood. The agency, which included an offset printing plant, handled municipal, retail, club and leading motels' accounts.

In addition to former responsibilities as vice-president of his congregation, Holy Trinity Lutheran Church, Wildwood, Mr. Klimesz served as councilman and secretary of that parish from 1938 to his active duty in the Navy at the outset of World War II. He was attached to the staff of the commander-in-chief of the Atlantic Fleet.

During the war, the churchman considered becoming a Navy chaplain through its seminary program but decided that the church needed effective laymen as well as ordained clergy. He had qualified for the chaplaincy program through attendance at Rutgers University and the University of Pennsylvania.

Returning to business life in 1945, Mr. Klimesz entered into partnership with his brother in the Klimesz Food Market. He sold his interest in 1951. At that time he joined radio station WCMC in Wildwood, serving as a radio time sales representative and assistant in programming and announcing. From 1955 to 1957 he was advertising director and salesman for one of the largest auto dealers in South Jersey.

Mrs. Klimesz, also raised in Wildwood, is Collector-Treasurer of one of its four municipalities, Wildwood Crest. The couple's teenage daughter, Marie, is a high school student.

Social Notes

By Del Jahneke

Mr. and Mrs. Victor Szypulski and daughter, Mary, of Libertyville, and Mr. and Mrs. William Olles from Chicago were recent guests at the Frank Kennedy, Sr., home in Antioch. Mrs. Szypulski is Mrs. Kennedy's sister.

Apologies are in order to the Beitzel twins, Wanda and Anita, now of Salem, Wis., but formerly Antioch residents. It seems that Wanda, not Wanda, enjoyed the two weeks at Camp Wawbeek, Wis. This is the camp that is especially designed and equipped for handicapped children and adults. Wanda has cerebral palsy, and her twin sister, Anita, is blind. They are the daughters of Mr. and Mrs. Carl Beitzel, of Salem.

Cadet S Sgt. Ed Jahneke, Jr., Beach Grove, returned to the Onaga Military School on Sunday, August 29, to begin his Senior year there. He is the "A" Company Commander, and is responsible for much of the military training of the 45 cadets under his command.

The Richard Moran family of Antioch were guests of the Robert H. Dunlap, Jr., family, Grass Lake, on Thursday, Sept. 2.

Heroic Chief Given Medal For Saving Children

Philemon D. Brown, Chief Electronics Technician, was presented the Navy-Marine Corps Medal by Captain Jewett O. Phillips, Commander, Naval Training Center, during the Service School Graduation at the Great Lakes Naval Training Center.

On May 15, at approximately 4 p.m., a home at 906 Hillwood Circle, Round Lake, caught fire after the furnace exploded.

Chief Brown, who lives next door, smelled the smoke and forced his way into the blazing inferno. He dropped two of the older children from a window and carried the three others through the flames and out the door he had entered.

The children Chief Brown rescued were Susan, 10, and Jamie Scialavva, 2, and three Stergil children—Richard, 5; Junior, 3; and two-year-old Gigi. The children were alone in one apartment of a two-apartment ranch house.

A citation from the Secretary of the Navy, Paul H. Nitze, to Chief Brown reads:

"For heroic achievement in rescuing five children from a fire in a private dwelling in Round Lake Beach, Illinois, on the early evening of

May 15, 1965. Hearing a cry for help emanating from the house next to his own, BROWN, after discovering that his neighbor's house was afire, rushed to the scene and succeeded in pulling two children through a transom-type window to safety.

Upon being told that a baby was still inside the burning home, he quickly broke a window and entered, but was driven outside by the dense smoke. He then went around to the other side of the house where he found an older child who had come out by another exit.

BROWN re-entered the dwelling and worked his way into a bedroom where he found three small children instead of one. He made two trips through the smoke-filled house to carry all the children to safety. By his prompt and courageous actions in the face of great personal risk, Brown was responsible for saving the lives of five children. His determined and inspiring efforts were in keeping with the highest traditions of the United States Naval Service."

A veteran of 20 years in the Navy, Chief Brown is an instructor at Electronics Technical "A" School.

Teens To March Against Leukemia

Danny Thomas' "Teen-Age March Against Leukemia" will be held in the Antioch area Sunday, Sept. 19, between 1 p.m. and 5 p.m.

Young men and women between the ages of 13 and 19 will engage in a door-to-door solicitation to raise funds for the maintenance and support of the Danny Thomas-St. Jude children's Research Hospital.

The hospital is the only one of its kind in existence today. Children of every faith, race and color receive free care and treatment for leukemia or associated blood diseases.

"When a teen volunteer calls at your door," say the

local leaders, "be as generous as you can. But what is more important, give them a smile, a word of encouragement to let them know that we are proud of them, of what they are trying to accomplish."

Antioch area leaders are the Mesdames Robert Jensen, Myrus Nelson, Frank Toman, Mac Ryan, Walter Good, John Fries, Robert Lasco and Frank Kuechenmeister. Mrs. Robert Scott is the District Leader.

Teens may sign up for the March against Leukemia at the poster in school or local Churches or by calling 395-2195.

Ant. Lumber Opposes Law Change

Federal Government intervention in Illinois' unemployment compensation system is opposed by Antioch Lumber & Coal Co., of Antioch, a member of the National Lumber and Building Material Dealers Association, headquartered in Washington, D. C.

"NLBMDA presented its views this month against proposed changes in the unemployment compensation laws to the Ways & Means Committee of the House of Representatives, presently considering H.R. 8282—Employment Security Amendments of 1965," Antioch Lumber & Coal Co. said.

"A proposal in the legislation permitting a state to abandon its experience rating or merit rating system would weaken employment stability in the industry," declared Antioch Lumber & Coal Co. "States adjust tax rates for each employer according to his unemployment experience, giving employees an incentive to carry employees on the payroll year-around. Because of favorable unemployment, taxation, dealers in our industry tend to keep employees on the payroll despite sluggish seasonal periods of building activity."

Price rise of materials could result if this legislation is enacted by Congress, Mr. Vos warned, due to sharp increases in both Federal and State taxes. "More often than not, these increases are passed on to the buyer."

SQUARE DANCE CLUB STARTS FALL SEASON

The Lake Promenaders Square Dance Club will hold its first dance of the season on September 18 at 8 p.m. in the Grayslake High School cafeteria.

The Club will start classes on Tuesday, September 9. Anyone interested is invited to participate. The series will include 20 lessons. Further information may be obtained from Gerald Crichton, El. 6-5490 or Don Jorgenson, Ba 3-0552.

McClory Raps Scare Tactics

Congressman Robert McClory (Rep.-Ill.), one of a group of Republicans who signed the discharge petition to bring the District of Columbia Home Rule Bill to the floor of the U. S. House of Representatives, expressed dismay and concern at the statements of President Johnson indicating that violence could occur in the District of Columbia, as it did in Los Angeles, unless a Home Rule bill is enacted.

Said Congressman McClory "My purpose in signing the discharge petition was to bring to the House floor, for debate, the subject of an elected municipal government for the City of Washington. As a resident of the city during the entire time the Congress is in Session, I am interested in good management of the basic municipal services upon which the operation of our capital city depends."

I reject the warning of the President that any Member of the Congress should act on the Home Rule Bill or any other legislation for fear of riots or other unlawful disturbances. It seems to me that the President has already exceeded his role of coercing legislative action. To bring a District Home Rule Bill to the floor of the House is a decision which the Members of the House—themselves—should make without the President's dire predictions. In my opinion, the President should devote more of his attention to encouraging compliance with our laws and a stricter enforcement of federal, state and local ordinances and resist his tendency to subordinate the people and the Congress to his will.

"I do not ordinarily resort to a discharge petition as a means of legislation. I would much prefer that the District of Columbia Home Rule Bill should come to the House floor by reason of committee action. Indeed, if I were assured that the committee would act promptly on the legislation now pending before it, I would—in turn—act promptly to remove my name from the discharge petition."

With a total of 218 signatures required to discharge the House committee from further consideration of the bill and to bring the measure to the floor of the House for debate, 161 Members signed the discharge petition in the first 24 hours. Of these 161 signatures, 18 names including that of Congressman McClory are Republicans.

State Chamber of Commerce To Meet

The Illinois State Chamber of Commerce will hold its 47th annual meeting on September 30 and October 1 in the Palmer House in Chicago.

More than 3,000 business and professional men and women from throughout the state are expected to attend the meeting.

Highlights of the session will be addresses by U. S. Senator George Murphy, Secretary of Commerce John T. Connor and Michigan Governor George W. Romney.

What Are We Buying, Bruno?

SPRINGFIELD, Ill. — Attorney General William G. Clark has held that counties can purchase and operate waterworks systems but they cannot finance such purchases by a note and a mortgage upon the property. However, Clark's opinion advised State's Attorney Bruno W. Stanczak of Lake county, the county may issue revenue bonds to finance the purchase.

LADIES AID ENTERTAINS GROUP FROM ANTIOCH

Members of the Millburn Ladies Aid entertained about 80 guests at an afternoon tea last Thursday, Sept. 2.

Groups from Antioch, Lake Villa and Grayslake were present.

The Rev. and Mrs. L. H. Messersmith provided the devotions and programs. Devotions consisted of a record made by the pastor of the Hawaiian Congregational Church, explaining the meaning of "Aloha."

The program consisted of slides and movies of various places and events in Hawaii.

The Harvey's Visit Wash.

Mr. and Mrs. James Harvey, 480 Crest Lane, Antioch, and their three children, Donna, Timothy and Michael, visited Washington, D. C., recently and toured Capitol points of interest for five days.

They visited Mt. Vernon, Arlington Cemetery, the Mint, and the White House, among other spots. They attended a session of the House of Representatives and were taken on a conducted tour of the House by Representative Robert McClory.

"We could have seen more," Mrs. Harvey said, "except that you had to stand in line to get in each place, even to get a drink from a drinking fountain."

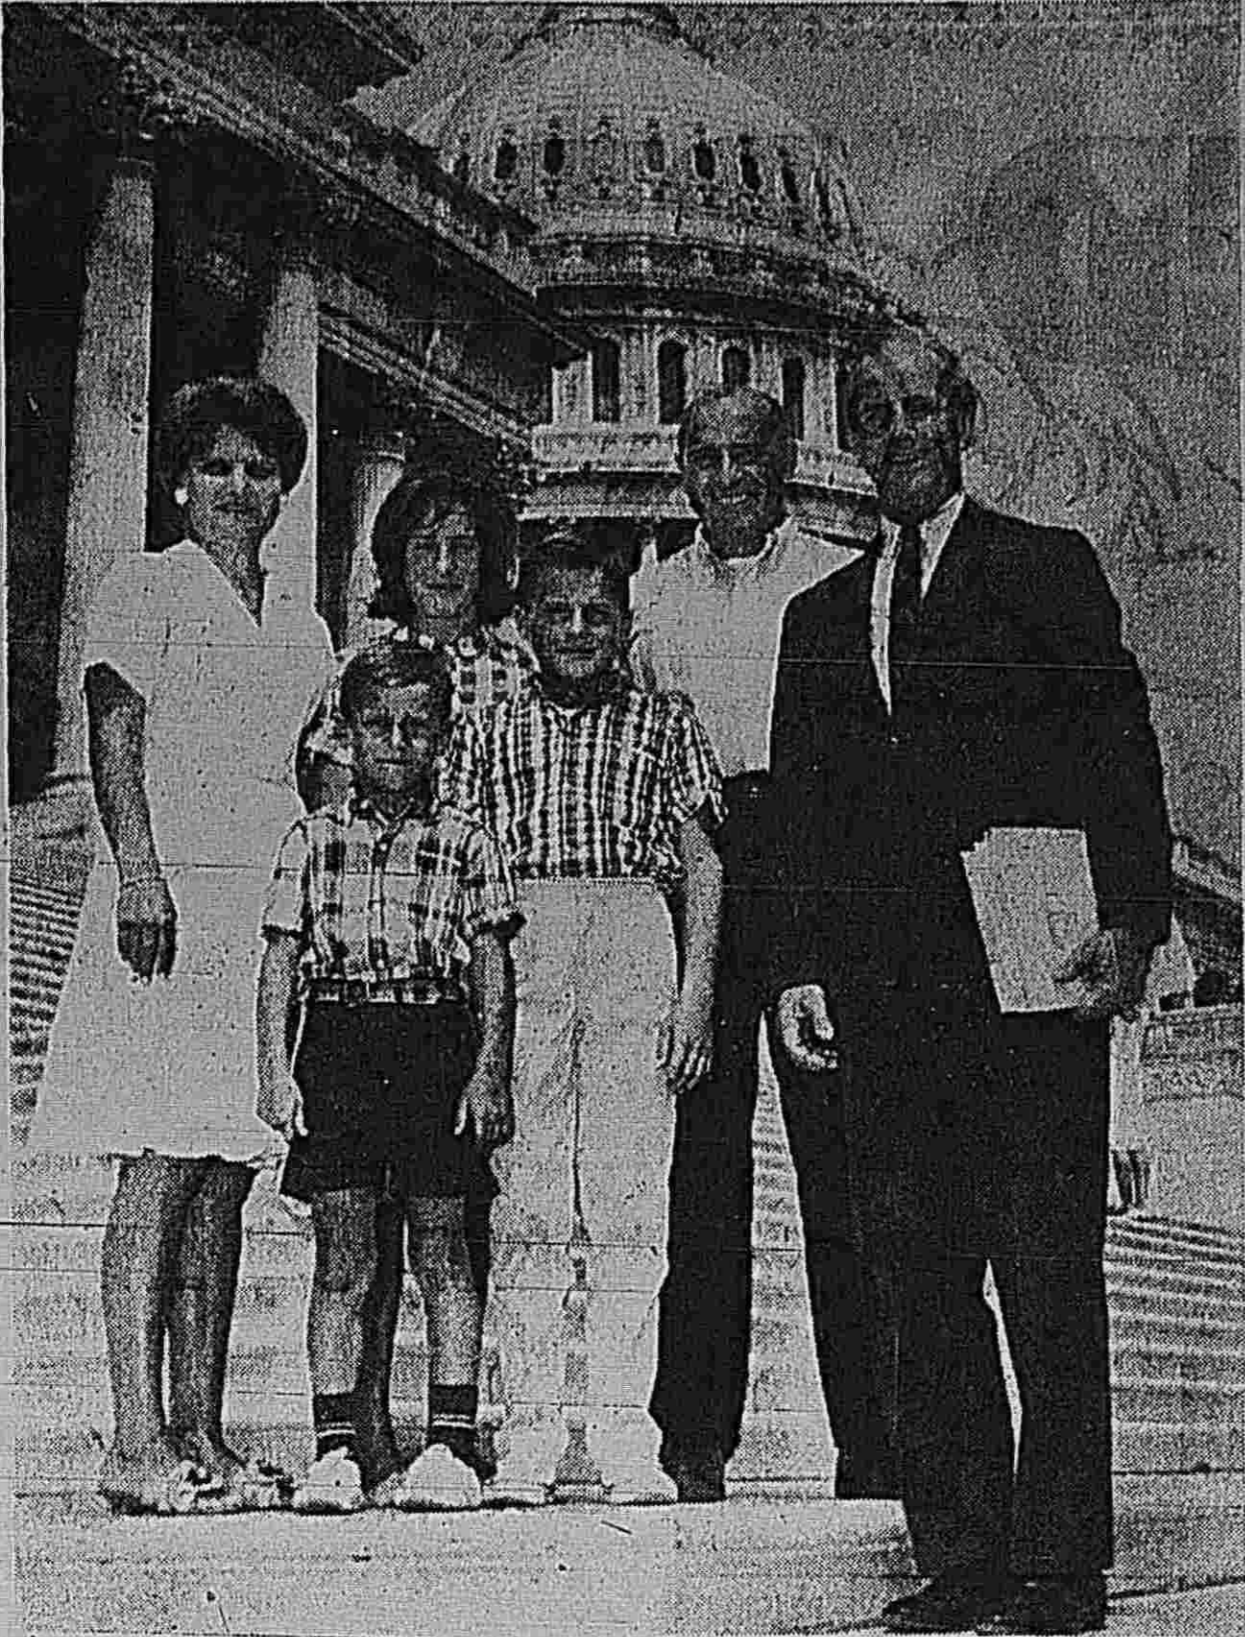

The Harvey children attend St. Peter's School.

Sequoit Football Prospects Brighten

BRAD IPSEN, center and Tom Blackman, quarterback work on their timing getting ready for the seasons opener against Grant September 17th.

With only a little more than a week left before their season opener against Salem High School, Antioch football prospects are brightening.

"We won't be very deep in any position," said Coach Roy Nelson, "but if we aren't plagued with injuries I think we'll be real tough." The backfield shapes up with Tom Blackman at quarterback, Tyrone Walls at fullback, Dave Fabry at one halfback and either Karl Hawkins or Bill Sheldon at the other half.

"Jim Litchfield has been a real pleasant surprise in early practice sessions," Nelson added. "He has good speed and a good pair of hands and should help us a lot at end and halfback."

At the ends, it will be veteran Mike Sterbenz on one side and Fred Gras at the other. Tackles will be Bill Meyer and Frank Dowling. Bruce Bonner, Don Mason and Glenn Oftedahl will alternate at the guards and Brad Ipsen holds down the post at center.

Also slated to see action this season are Alan Osterlund and Steve Loblillo. "We expect to get some defensive help from Tim Osmond and Bill Greear," Nelson said.

"We have another hopeful

in Howard Zimmerman, Nelson added, "He just recently reported and hasn't been in for any contact work as yet, but at 235 pounds he will be the biggest man on the squad."

In commenting on the conference Coach Nelson said, "Warren looks like the team to beat. You can't discount Lake Forest, they're always tough. I don't expect too much from Grant, they lost a lot from graduation and then some of their boys from last year's squad didn't come out this year. Round Lake could be a sleeper this year," Nelson added. "And I expect Antioch to be right up there, too."

ANTIOCH LITTLE LEAGUE

The Sox, sponsored by Gibbs & Jenson Sporting Goods on Lake St., are the 1965 Little League champs. The Sox met the Tigers who are sponsored by the State Bank of Antioch on Main St. The first game ended up a 4-4 tie when the game was called because of darkness in the 8th inning.

The second game was taken by the Sox 4 to 3 giving them the lead in the playoffs 1-0. The Sox started the scoring in the top of the third with 2 runs, a walk to Dale Hoyer and H.R. by Dale Dvorak, but the Tigers fought back in the bottom of the third with 3 runs on a

single by J. Smith, a walk to J. Schaefer, an error by the left fielder and a single by C. Vistain. Then the Sox came through with 2 runs in the top of the sixth on a walk and 3 singles.

The third game was won by the Tigers 3 to 2 on a 2 run homer by John Schaefer.

The fourth game and the playoffs was taken by the Sox 5 to 3.

Children of Veterans Eligible For Benefits

Mr. Edward B. Akin, Administrator of the Illinois Veterans' Commission, has issued a reminder to parents and guardians of deceased veterans' children who are eligible for the state educational benefit under the veterans' Children Educational Opportunities Act. He states that it is necessary to file application with the Illinois Veterans' Commission with each new school year.

Mr. Akin further explained that this act provides \$150 each school year for each child between the ages of 10 and 18 whose parent died in service or from a service connected disability incurred during World War I, World War II, the Korean Conflict, or during the induction period under extra-hazardous circumstances or simulated warfare. This benefit also pertains to children of veterans who are totally and permanently 100% disabled as enacted by the 74th General Assembly.

Any parent or guardian who feels that their ward is eligible for this benefit, should contact the nearest Illinois Veterans' Commission office for additional information.

You may contact H. D. Blackwell, Service Officer of the Illinois Veterans' Commission at 108 S. Genesee St., in Waukegan. The office is open Monday through Friday between the hours of 8:30 a.m. and 5 p.m.

Time out for Lunch

The absent-minded professor peered at his class and said, "The time has come for us to dissect a frog. I have one in my pocket for the experiment." He took a crumpled paper bag out of his pocket and extracted from it a very tired looking sandwich. The professor trembled visibly and cried, "Goodness me, I distinctly remember eating my lunch."

Of course the meek shall inherit the earth—they won't have enough nerve to refuse it.

Burgan & Reimer Most Popular Drivers of '65

The "Monsoon Season" seems to be common to both Viet Nam and Waukegan Speedway as day-long tropical rains pelted the Speedway and forced postponement of the Saturday night late model and jalopy program. Four more weekends of late model competition are scheduled at the Speedway.

Reimer Scores

John Reimer got back into his winning ways at the Waukegan Speedway Sunday night as he posted the fastest qualifying time, won the special trophy dash, and then came on strong to grab the 50-lap summer championship feature.

Earlier in the evening, late model pilot, Dennis Burgan, and modified jockey, Reimer, received trophies after being voted the "Most Popular Drivers for 1965" by the fans in three weekends of voting.

As Fran Ansell, Harold Wade and Reimer battled for the feature lead in the eighth lap, a stray wheel caused all three of the leaders to tangle in the fourth turn and brought out the red flag as Reimer's and Ansell's cars blocked the track. A little drama was inserted as a tow truck hooked onto Reimer's mount; however, he was finally able to restart.

Ansell held the lead on the restart, but Wade slipped by him on the 12th lap. Reimer moved in behind Wade on the 17th, and powered on by in the 20th circuit. Ansell, now in third, poured on the coal, dueling Wade, then recaptured second spot on the 37th lap. He held off a last-lap challenge by Wade to claim second spot.

John Beardsley powered his newly built Ford convertible to his first feature victory Sunday night and became the tenth different late model feature winner of the season. This feature was stopped twice, the second

time as Scott Clark flipped his Ford convertible in the second turn. Clark emerged uninjured.

Elsewhere, Jim Cossman set a new six-lap record in the trophy dash after passing Odell Jones with one lap to go. The roll-over contest proved very exciting, as the first contestant to make the flip shot off the specially built ramp at high speed and flipped violently in a backward cartwheel. The driver, Norbert Reimer, was knocked unconscious, but recovered and did not require hospital treatment. Emil Ludwig also flipped before the ramp was demolished.

A shortage of modifieds caused by a scheduling conflict forced cancellation of the usual modified heat races in order to prevent damage to any of the racers before the big feature. Nevertheless, a huge 12-event program was presented as a large field of late models filled the gap. Next Sunday is expected to see a surplus of top modifieds as several other area modified tracks have already closed their games with the Labor Day races. Four more weekends of racing are planned for the Waukegan Speedway.

Dodgers Champs In L. V. Little League

By Bernice Bernau

In the exciting race for the Little League championship, the Dodgers outdistanced the Angels to capture the crown. Both teams were in the running all the way from the opening of the season and a play-off game was necessary to decide the championship.

The two teams ended the regular season with identical 11 and 3 records. The Dodgers showed that they had the makings of true champions in their last regular game of the season with the Yanks. With the Angels' 11 and 3 record already intact, the Dodgers had to win this game to tie the Angels.

At one point in the game, the Dodgers were down four runs, but came from behind to win 17 to 8. This victory elevated the Dodger spirit to such a degree that they handily defeated the Angels in the playoff game by a score of 13 to 0.

Rick Affalter pitched a superb game allowing the Angels only two hits.

Colts Are Babe Ruth League Champs

By Bernice Bernau

In the Lake Villa Township Babe Ruth League play, the Colts started slow but came on with a roaring finish to win the championship with a remarkable 13 and 2 record.

During the first three rounds of play, it appeared the battle for the top spot would be between the Tigers and Mets, but after the second round, it was the Colts all the way.

Mainstays of the Colt team were Pete Schmeisser who won 9 and lost 2 in the pitching department. He had a 2.3 E.R.A. for the season. And Mark Harling who blasted five home runs. The last game of the season was highlighted by a home run by Mark with one aboard. Pete gave up two hits in the game. The score of the final game was 5 to 1.

Members of the Colt team are John Drago, Del and Mark Harling, Don Carlson, Pete and Steve Schmeisser, Jim Shore, Ted Gruszczki, Bret Brasher, Bud Holway, Chuck Madsen and Gene

CAREERS

Three small boys were sitting on a curb. One had a model airplane, one a fire engine and one was reading Esquire. An elderly gentleman stopped and asked what they wanted to be when they grew up.

The first said, "An airplane pilot."

The second, "A fireman."

The third boy, looking up from his magazine, replied, "To heck with the details, I just want to grow up."

Now is the time to phone 395-4111 for free classified.

Scholastic. Will Woolky managed the team and Ted Gruszczki coached them.

Field Trials For Rare Hunting Dogs Stated For Sunday

At least two Antioch families will be on hand to watch the first field trial in this area for Vizslas.

Vizslas are a fairly rare hunting dog. Mr. and Mrs. Richard Olson and Mr. and Mrs. Lew Simon of Antioch belong to the Vizsla Club of Illinois. The field trials, restricted to Vizslas, will be held at the Wing and Fin Hunting Club at Volo on Sunday, Sept. 12.

Simons said he would have his 15-month-old Jodi entered in the trials. He purchased his dog from Olson.

Simon's enthusiastic about the breed. "They're wonderful dogs," he said. "They love children, have a wonderful disposition, make good house pets yet are excellent in the field. They're pointers and retrievers. I hunt quail and pheasant with Jodi."

Sunday's field trial will display 34 dogs from all over the state.

BOWLING WITH THE STARS

by Ron Winger AMF Staff of Champions

Courtesy On The Lanes

Every sport has some rules of etiquette or fair play, and bowling is no exception. You and your friends will enjoy the game more if you eliminate situations which subtract from the fun in bowling.

Generally speaking, the bowler on the right has the right-of-way, but the bowler on the left has preference if shooting a spare. When another person is on the approach ready to bowl, don't cross in front of him, call to another bowler or in any way distract the bowler who is concentrating in the stance position.

To league bowlers I say, "make sure you are on time". You should develop a habit of arriving at your bowling center about 15 or 20 minutes before you are scheduled to bowl.

This will give you ample time for changing shoes, conversation and other necessary details and still enable you to be on your lanes ready to bowl at the prescribed time. Remember that punctuality is admired on the lanes as well as off.

To all bowlers, I say confine your gyrations to your own lanes. It is true we all like to use "Body English" during our game but don't do so by infringing on the rights of someone else who is bowling on another lane.

"HELPING STUDENTS"

"MEASURE UP"

Students want to do well... and parents naturally want to see them do well. But sometimes we try so hard that we overlook the divine laws that are the basis of all real intelligence and progress, as this program will bring out, explaining at the same time how spiritual understanding can make academic achievement a joyful and exciting experience.

"THE FUEL OF INTEREST"

"The patent system added the fuel of interest to the fire of genius."

The words are Abraham Lincoln's. And they eloquently describe a system which is almost as old as the nation itself—George Washington signed the first Patent Act in 1790—and which has been responsible for immeasurable benefits to humanity.

The more than three million patents which the office has granted run an incredible gamut, from such oddities as an automatic hat tipper to communications satellites. Some have been vastly successful, and many others fairly so. A great percentage of the whole have been commercial failures. But whatever the particular case, the protection the patent offers the inventor and discoverer is the essential spur that keeps men working and dreaming and searching for new and valuable devices of every conceivable kind.

Patent rights run for 17 years. Trademarks run for 20 and are renewable. But on occasion, efforts are made to reduce these periods. One recent proposal, for instance, would drastically cut the time span on drug patents. The effect this would have on drug research and development is easily estimated. Much of that research, inevitably, produces nothing of value, even though the cost is heavy in money, manpower and resources. The successful drug must pay the way for the failures. Should adequate patent protection ever be denied the drug industry, research and experiment would sadly suffer—and vast numbers of victims of illness would be the ultimate losers.

The "fuel of interest" that feeds "the fire of genius" must be maintained.

OPENS MONDAY, SEPTEMBER 13

Polson's DIETARY FOODS

EST. 1926

883 MAIN STREET - ANTIOCH, ILLINOIS

If there are 1000 miles of blood vessels in our body, if there are one million five hundred thousand sweat glands on its surface, if our lungs are composed of seven hundred million cells, if the heart beats for a single day, were concentrated into one huge throb of vital power it would be sufficient to throw a ton of iron 120 feet into the air and if our nervous system is controlled by a brain that has three trillion nerve cells and if in our veins there are 3 million white corpuscles and 180 trillion red ones, then it would seem we owe this marvelous machine of ours better care. Common sense tells us we cannot generate high test performance out of low test fuel. Polson's Dietary Foods opens Monday, September 13. Where you can obtain the foods that your doctor has prescribed for you. Foods that will help you survive better and longer.

IGA **FOOD MAGIC!**
SAUERBRATEN

Into a large bowl blend together 1 pint Red Wine Vinegar, 2 onions, sliced, 1 carrot and 1 celery branch, sliced, 1 bay leaf, 4 whole cloves, 2 tsp. salt, 1 tsp. pepper, 1/2 tsp. Allspice and 1/2 cup water. Into this marinade place a 3-4 lb. TableRite Chuck Roast, marinate 3 days, turning meat occasionally. Drain meat, dredge in 1/4 cup flour, brown on all sides in 1/4 cup IGA Salad Oil, place in heavy skillet or Dutch Oven, add marinade, cover and let simmer til tender, 2 1/2 to 3 hours. When meat is done, skim off fat, add 1/2 cup crushed gingersnaps, 2 tbsp. brown sugar. Thicken gravy if desired with flour-water paste. Check seasoning, serve hot with choice of vegetables, or Red Cabbage and boiled potatoes. Garnish with parsley.
